

WHACK IT TO 'EM.

Pharmaceuticals Jam the Prod Into Unpopular Medicine Men.

A meeting recently held at Oklahoma City, largely attended by the members of the Oklahoma Pharmaceutical Association and druggists not members, the following resolution was adopted, and the president of the association was instructed to have the same sent to every druggist in the territory for his signature; also to a copy to each board of pharmacy and the secretary of each association in the United States, requesting their cooperation in connection with this the president the association has sent out the following address to all pharmacists in the territory:

A special called meeting of the Oklahoma Pharmaceutical Association (Oklahoma City, on June 28th, the following business was transacted: It was decided to put up a line of medicines under a uniform label, and F. Lillie, Boston Wilson, John Wand, R. Haley and R. J. Weeks were appointed a committee to correspond with the pharmaceutical manufacturing companies to secure their prices and terms, and to incorporate under the laws of the territory a stock company for the purpose of purchasing or manufacturing these preparations. The purpose was to secure the cooperation of all the druggists in the territory, and to form a stock company in which all will be interested to a small extent, and eventually to manufacture the preparations are now purchasing away from us. This committee is to report to the adjourned meeting at Oklahoma City on July 15th, and you are earnestly requested to be present at that meeting.

The association also passed the resolution which I enclose herewith, and directed me to furnish a copy of it to each pharmacist in the territory, and request that they sign and return to me, therefore request that you sign this resolution and return in enclosed envelope by return mail, and that you need at once to carry into effect its provisions. I think we should go even further and agree not to patronize any druggist who carries the advertisement of patent medicine houses who have raised their price on account of a tax or for any other reason. In my opinion it is in favor of refusing to purchase any preparation that would cost more than \$7.50 per dozen for \$1 paraffin, and in like proportions for other prices.

The course pursued by most manufacturers is continually belittling the pharmacist in their advertising and raising their price to the retailer, leaving that their remedies will be sold by us regardless of profit. I could now be met with a decided and by the pharmacists of the United States, and let Oklahoma take the initiative in the good work.

Sincerely yours, F. B. LILLIE,
President of Association.

GUTHRIE, O. T., July 21.

The resolutions are as follows:

We the undersigned members of the Oklahoma Pharmaceutical Association and Druggists of Oklahoma Territory, convention assembled hereby agree on our honor that we will not accept factitious matter, nor keep for distribution in our places of business any of advertising, nor permit our names to appear in any of the territorial papers beneath the local advertisements of any patent medicine firms who have on account of the stamp tax raised the price of their medicines. We further pledge ourselves to discourage the use of all medicines that have been advanced in price on account of the stamp tax until prices have been reduced to the established loss in force prior to July 1st, 1898.

We feel that the patriotism of these institutions that have grown wealthy at the expense of the people of this country, is at an extreme low ebb when they force upon the retail druggists, not only the full burden of the tax, but in addition thereto, a large profit on the money they invest in revenue stamps, and we ask that they own their patriotism by at once placing in force the old prices and bearing their share of the burdens of the tax.

N. E. WALLACE, Sec., pro tem.
B. LILLIE, President.

COUNTY RAISES

In Equalization—Commissioner Sturgis Issues a Card.

Guthrie, O. T., July 7, 1898.

EDITOR LEADER—I wish to call the attention of the district school boards and the township boards of Logan county that the following equalization has been made by the board of county commissioners and the territorial board for the several townships in Logan county, to wit:

Antelope raised 35 per cent; Blumark raised 40 per cent; Bear Creek raised 30 per cent; Crescent raised 30 per cent; Cedar raised 20 per cent; Lawrence raised 60 per cent; Marshall raised 20 per cent; Mulhall raised 30 per cent; Oak View raised 15 per cent; Rose Hill raised 30 per cent; Springer raised 30 per cent; Seward raised 50 per cent; Springvale raised 40 per cent; Spring Creek raised 25 per cent; Woodland raised 60 per cent; Guthrie township deduct 30 per cent.

No raise was made in the following townships: Cimarron, Iron Mountain, Orlando, Iowa.

No raise was made in Guthrie Proper East Guthrie, West Guthrie, Capital Hill. Mulhall village was raised 30 per cent. Langston city deducted 30 per cent.

At your annual meeting of the school directors on Tuesday, July 12, 1898, to levy tax on the several districts it will be well for you to make your levy to correspond with the raise as made by the county and territorial boards of equalization. Township boards will be permitted to correct their levy. Make change of levy to date back to the original levy and report the same to the county clerk as soon as possible.

GOT USED TO BATTLE.

Edmund Wright says Rough Riders Became Accustomed to Fire in Twenty Minutes.

ON THE BATTLE FIELD, July 3, 1898.

DEAR MOTHER: We had a hard battle of two hours. It was very scary for a short while, but we got used to it after about twenty minutes.

Five of our boys were shot, but none of them were killed.

Our right one will die. His name is Durham.

We expect to have another battle tomorrow or the next day.

I hope this will find you well. Do not worry about me for I am all right, and I hope to get back home safely.

Good bye until I write again.
Your loving son,
EDWARD WRIGHT.
